

Summary table of information about PFDs in CQC reports on the providers that were most often reported to CQC by coroners:

Regulated body	Number of coroner's PFDs since July 2013	Latest overall CQC rating	PFD reports mentioned by CQC inspection report
Tameside Hospital NHSFT	11	Requires Improvement (8 September 2015)	No
Barts Health NHS Trust	8	Inadequate (15 May 2015)	No
City Hospitals Sunderland NHSFT	6	Good (20 January 2015)	No. Neither did CQC's report specifically mention deaths.
Stockport NHSFT	6	Requires Improvement (11 August 2016)	No
Avon and Wiltshire Mental Health Partnership Trust	5	Requires Improvement (8 September 2016)	One PFD - out of the five PFDs which had been issued prior to CQC's report - was reported: <i>"We were told that this had arisen following recommendations from a coroner's report"</i> . There was no reference to any other PFD.
County Durham and Darlington NHSFT	5	Requires Improvement (29 September 2015)	No

Milton Keynes University Hospital NSFT	5	Requires Improvement (6 March 2015)	No
Barking Redbridge and Havering University Hospitals NHSFT	4	Requires Improvement (2 July 2015)	No
Brighton and Sussex University Hospitals NHS Trust	5	Inadequate (17 August 2016)	No. Neither was any specific data given about deaths of trust patients.
Great Ormond Street Hospital for Children NHSFT	4	Good (8 January 2016)	No
Manchester Mental Health and Social Care Trust	4	Requires Improvement (15 October 2015)	"There were no concerns [eg PFDs] regarding the trust in the most recent report (April 2013 and September 2013). The trust told us about four subsequent coroners' rulings.."
Leicestershire Partnership NHS Trust	4	Requires Improvement (10 July 2015)	No. Neither did CQC's report specifically mention deaths.
Camden and Islington NHSFT	3	Requires Improvement (21 June 2016)	Yes. CQC's report commented: "The trust had not yet built a strong relationship with the new Coroner at St Pancras Court"
Northumberland Tyne and Wear NHSFT	3	Outstanding (1 September 2016)	CQC's report commented thus on one out of the three PFDs: "The trust

			has submitted one Prevention of Future Death report which they received in the 12 month period up to 1 April 2016 which raised concerns regarding the observation / engagement form and its completion”
North East London NSFT	3	Requires Improvement (27 September 2016)	Yes
University College of London Hospitals NHSFT	3	Good (15 August 2016)	No (Nor did CQC give any data on the deaths of trust patients)
University Hospitals of Leicester NHST	3	Requires Improvement (28 March 2014)	No (but all three PFDs were issued AFTER CQC’s report)
