29 October 2017

Dear Sir,

Fire safety and sprinklers

Please advise:

Of the 51 fires trust fires in 2015/16 and 132 trust fires in 2016/17 reported by NHS Digital*

- How many of the fires, to the trust's knowledge, were deliberately caused?
- How many, to the trust's knowledge, were caused by trust patients?
- How many prosecutions for arson resulted from these fires?
- Is the trust able to give a breakdown of the type of area where the fires occurred?

(eg, inpatient area, outpatient area or other).

- Can the trust provide an inventory of where automatic sprinklers are installed in its premises?
- Can the trust advise how many and what proportion of inpatient areas are fitted with automatic sprinklers?

Many thanks,

Dr Minh Alexander
