Notice from Our Chair to FALSE statements made by Eileen Chubb and JAM motion pictures

By [WhistleblowersUK](#) 22 May 2026 1 min read

On behalf of the Board of Directors we wish to make it crystal clear that the comment at the end of the film and what Ms Chubb has said today is totally untrue. Neither Mrs Halford-Hall nor any other colleague was given any opportunity to comment on any of the allegations made by Ms Chubb or others by the producers of the film. Ms Chubb and the producers are both joining in what is in fact a lie.

Its a fact that all the issues raised in the below documentary were put to #WBUK Halford Hall and they declined to comment. Its a fact that we had to go public with the evidence we had because #WBUK ignore all concerns and carry on regardless.

Ask why #WBUK always fail to comment. Ask why #WBUK publically boast about shredding concerns. There is only one reason for this behaviour, #WBUK have always known we are telling the truth and its hard to attack the truth openly so #WBUK used covert smearing and malicious allegations to try and silence the truth. We are #whistleblowers we do not do silence or turning a blind eye.

We have notified the relevant authorities and are taking action to address harassment, victimisation and abuse of our team and supporters.

If you have been impacted or have concerns please contact us by email to secretary@wbuk.org
